Hello! I am a recent graduate from California State University, Long Beach with a B.S. in Industrial Design. From my passion with automobile culture, I understand the importance of thoroughly exploring the user experience as it ensures a product is properly designed in both function and form and meets the varying needs of a user. The various forms that can be found in automobiles have fueled my drive to explore the world of the design.

EDUCATION

California State University Long Beach
B.S. Industrial Design
August 2016 – May 2021

EXPERIENCE

Idea Factory International | June 2021- Dec 2021

Video Game Product Tester; worked alongside localization team to refine video game playability, find/report bugs, and revise text grammar/translation from Japanese.

American Honda Motor Corp. (Aerotek) | Dec 2016- Sep 2020

Acura Brand Ambassador; spoke with clients regarding questions or concerns with their Acura vehicle. Kept product knowledge up-to-date and provided car technology troubleshooting, online account assistance, and information about vehicle recalls.

SOFTWARE/EQUIPMENT

Solidworks, Rhino, Keyshot, Sketchbook Pro, Procreate (iPad)
Fusion360, Figma, Microsoft Office (Word, Excel, PowerPoint)
Adobe Suite (Illustrator, Photoshop, XD, InDesign, Lightroom)

ACHIEVEMENTS

2020 Biomimicry Global Design Challenge Semi-Finalist

The Biomimicry Institute (Fall 2019- Spring 2020)

Designed a modular air filtration device intended to be fitted onto Los Angeles public transportation fleets to improve ground level air quality by capturing pollutants such as soot and excess CO₂.

SKILLS

- Concept Ideation
- Rapid Visualization
- Problem Solving
- Sketching
- Photorealistic Rendering
- Prototype/Model Creation
- Visual Communication
- 2D/3D CAD
- Graphic Design
- Collaborative Work
- Quick to adapt
- Basic Japanese

INTERESTS

- Automobile Design
- Automotive Aftermarket Design
- Automotive Mechanics
- Digital & Traditional Illustration
- Photography
- Bicycling
- Traveling
